Dear Dr. Bowery:

May I take this occasion to raise a question on which I was about to write you in any case. The role of the Clinical Research Center/ Rockefeller University Hospital is one that appears to me of very special interest and leads me to seek more information about organized clinical research activities elsewhere in the country. I had a chance to talk to Dr. Thomas Chalmers briefly about this the other day and he mentioned that there had been a study, circa 1970, assessing the overall clinical research center program. If you know of such documents and can provide copies of or references to them, I would be grateful for your interest.

Yours sincerely,

JL/gel

Bowery
